

# NETFLIX and dozens more companies use Plotly for dashboards. Here's why.

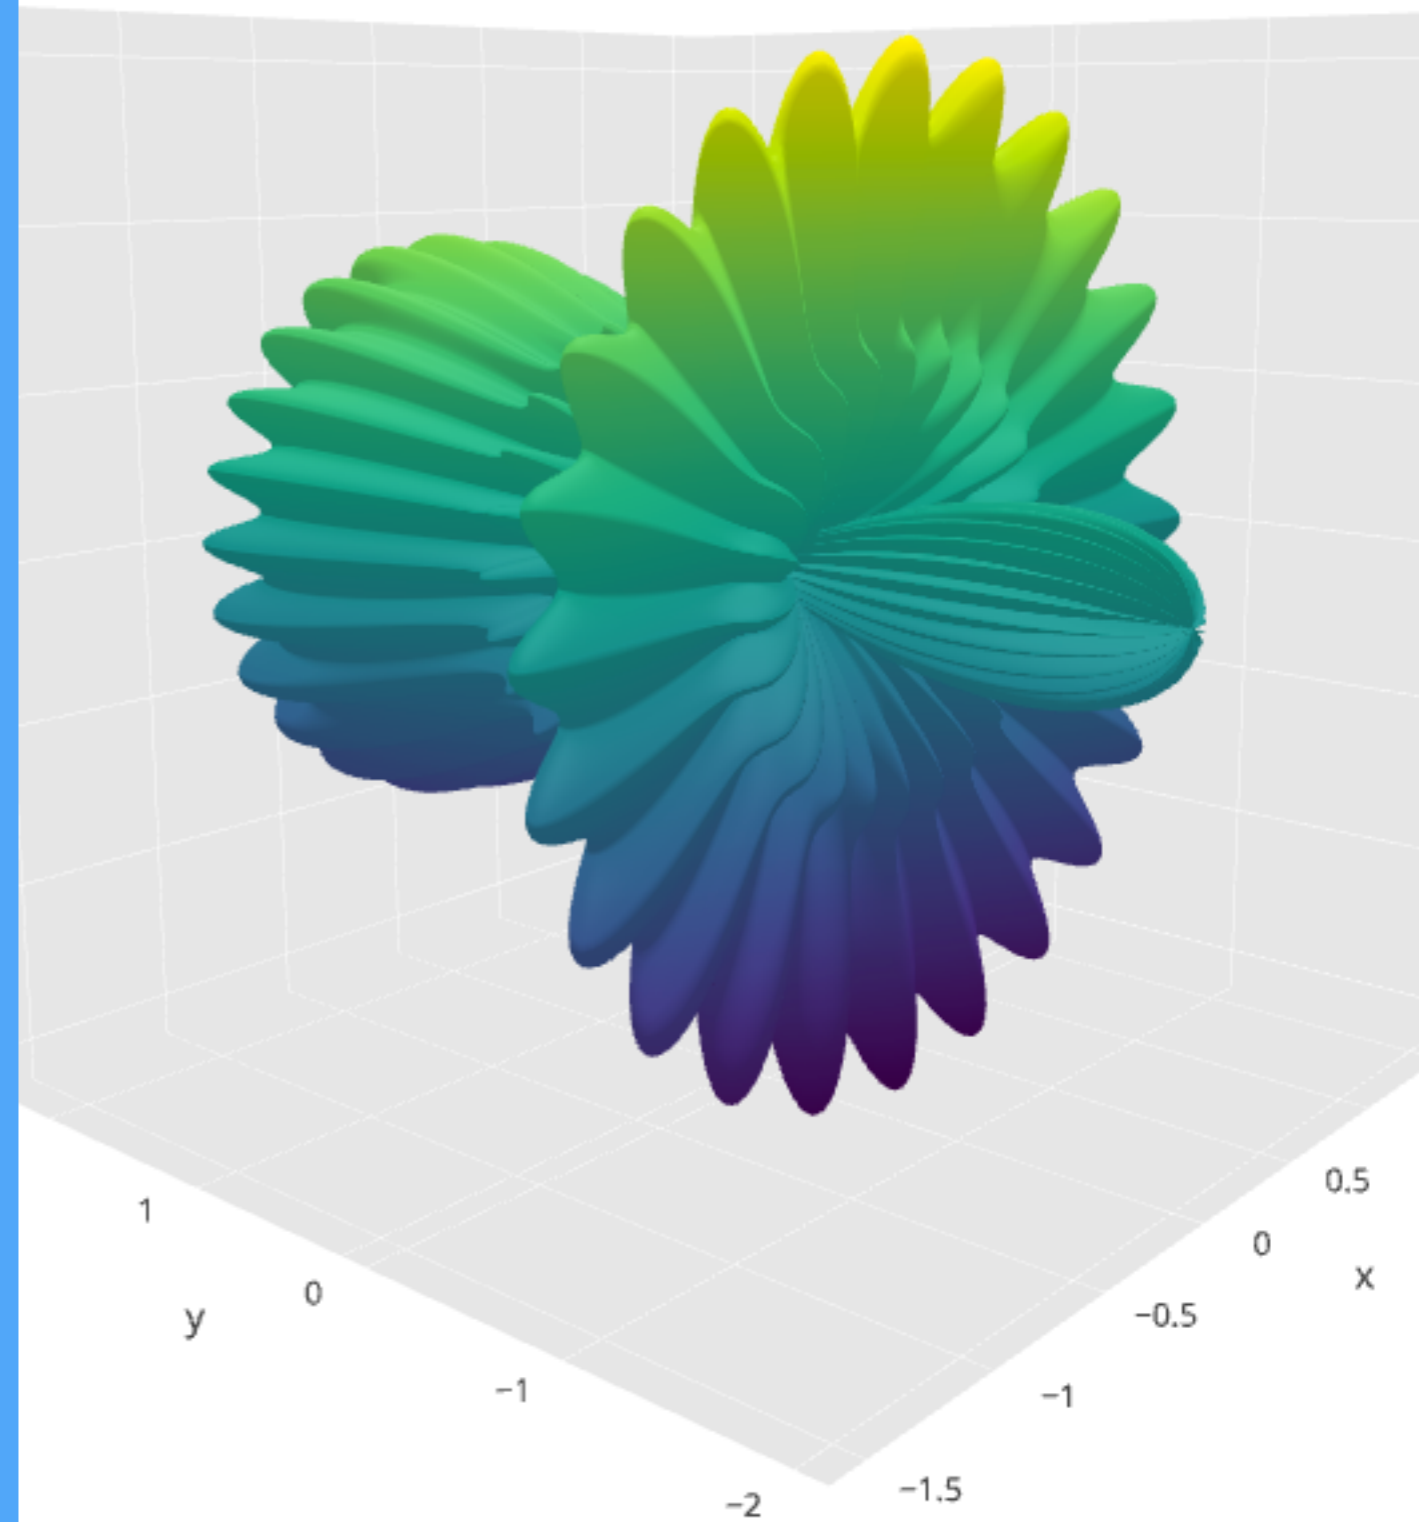

1. Publication-quality graphics
2. Tools that don't get in the way
3. 100% Web-based
4. World-class support

# Uncompromising graphics.

Same graphics engine used by the New York Times.

All charts are fully interactive (zoom, pan, hover text)

# You've got options.

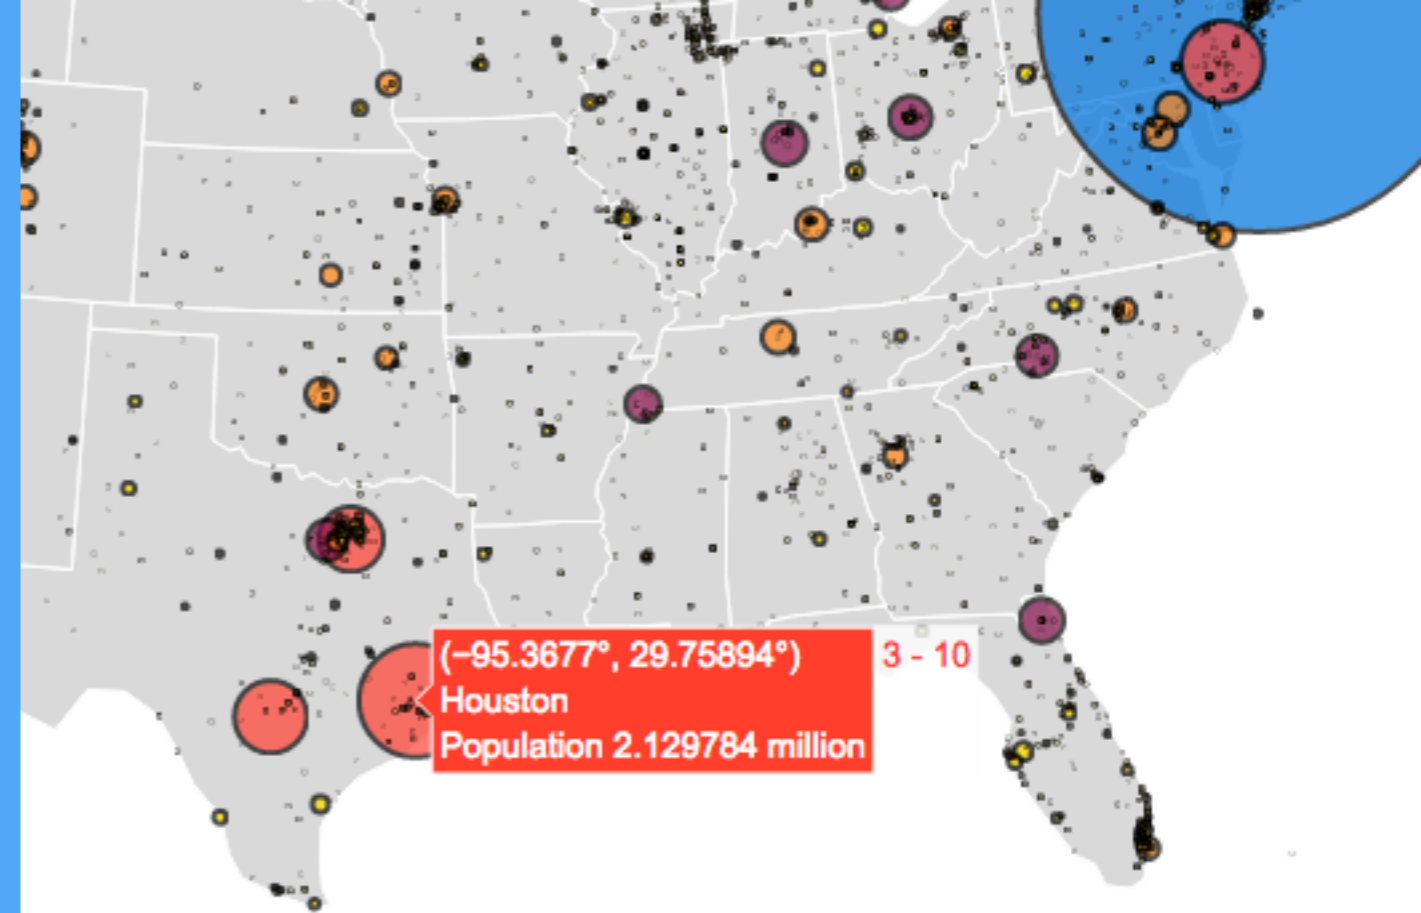

Build and update dashboards with tools that data scientists like:

- HTML
- Python
- MATLAB
- Excel

Or use Plotly's online GUI.

“ Plotly is a breath of fresh air in a BI space has become bloated, noisy, frustrating, and inflexible

Data science team at Goji Insurance

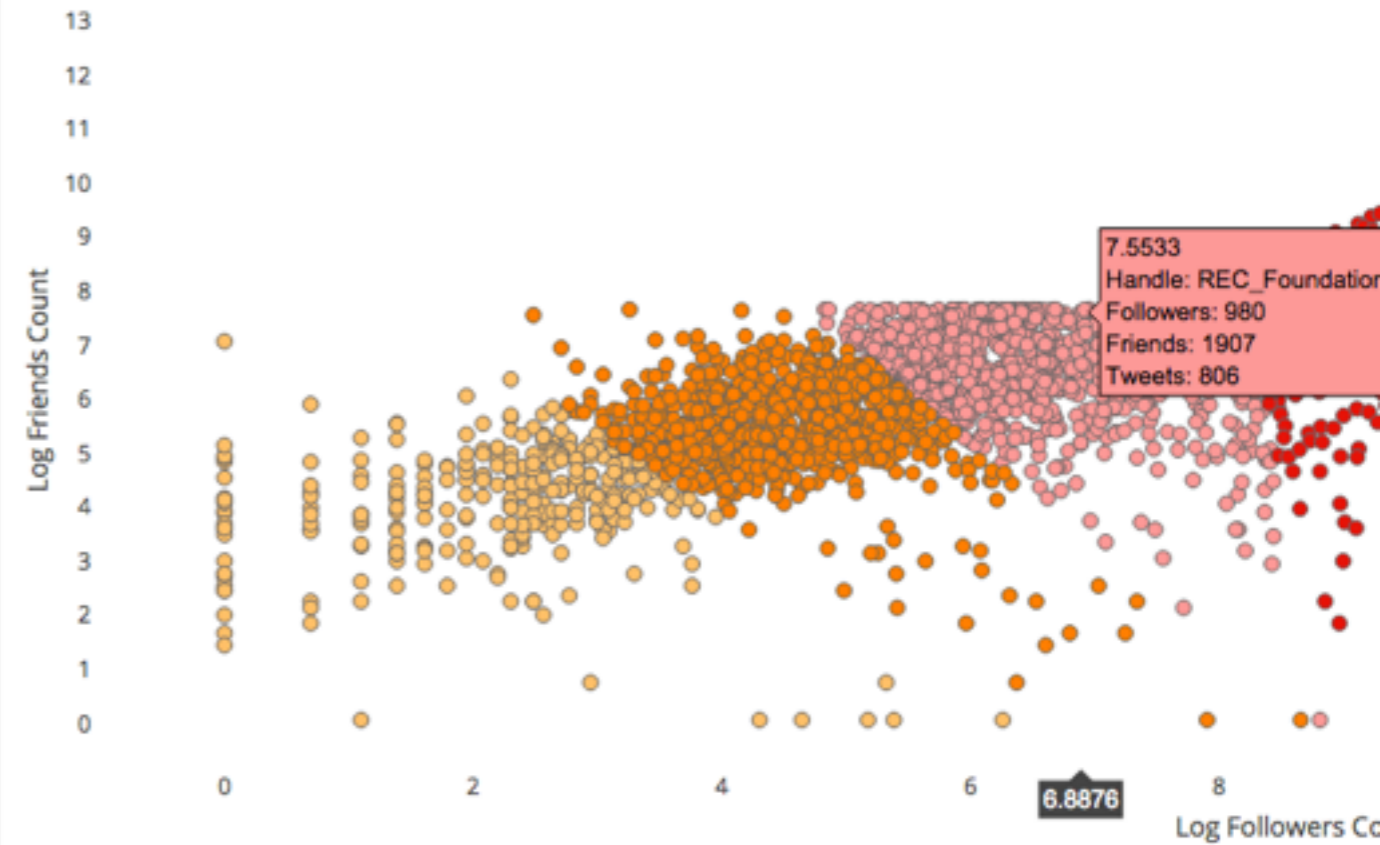

# 100% Web-based.

Graphics that are more powerful than Tableau, but nothing to download or install.

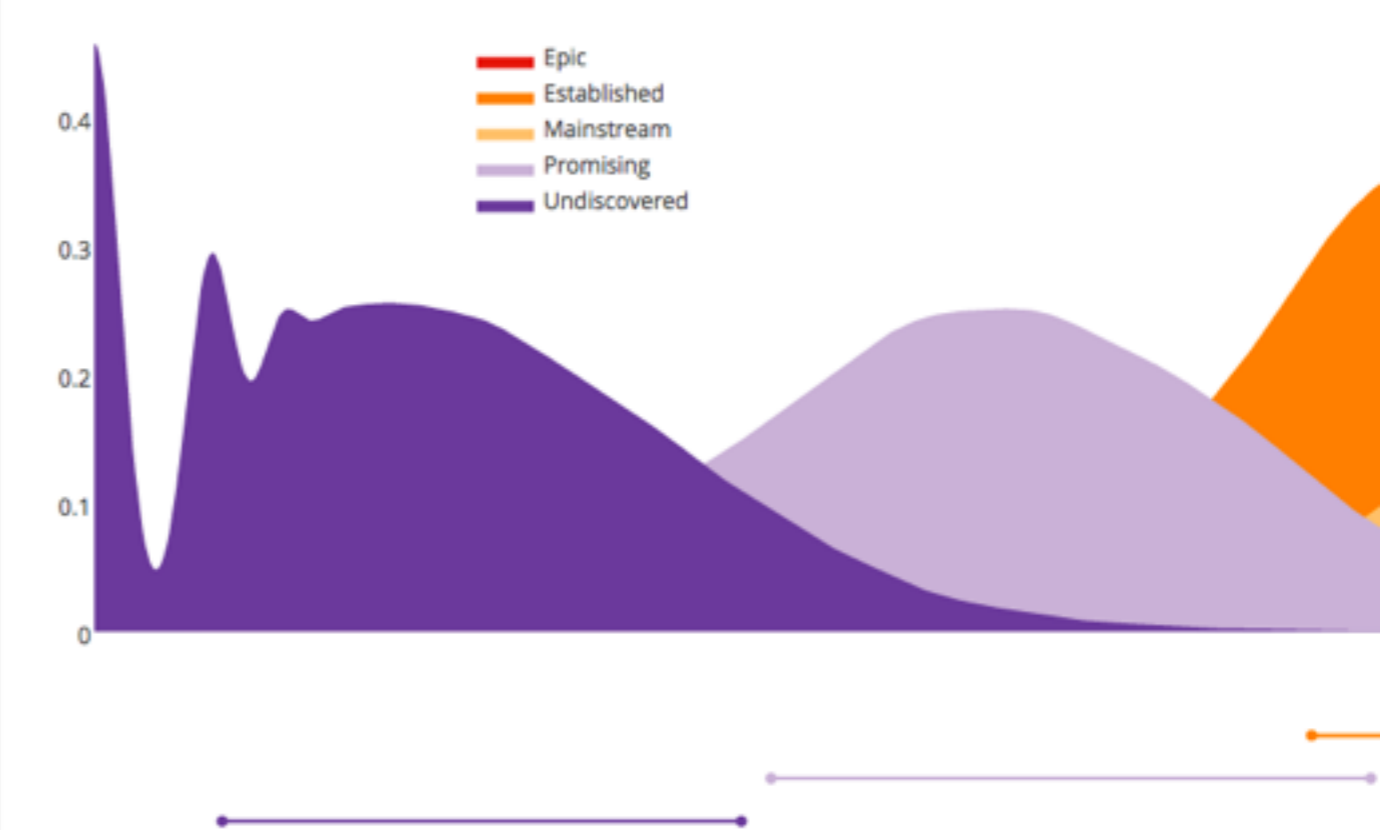

@plotlygraphs Friends vs Followers (Top 1,500) - Log 10 Scale

Copy & Edit

Twitter Follower Distribution (by product platform)

# All hands on deck.

Plotly engineers will help you get your project off-the-ground and work with you until its a success.

Some companies we've worked with

NETFLIX Google
